## Work experience

### UX/UI-Designer, Freelance

2024 May – Current

Specialised in product design, digital design, user experience, and interface design. Creating and delivering clear and user-friendly solutions that improve workflows, productivity, and customer experience. Extensive experience working with and redesigning legacy systems and platforms to meet modern user needs and technical requirements.

#### Clients freelance:

Göteborgs Universitet, Kompassant, ScandiKitchen UK

### UX/UI-Designer, Koalitionen, Göteborg

2021 – 2025 September

Led the development of redesigning legacy systems to improve user experience, productivity, and information accessibility. Developed new features and interfaces for digital platforms, ensuring accessibility and alignment with brand identities through close collaboration with users, product owners, and developers. Created internal concepts, WordPress websites, and design prototypes to explore new ideas and opportunities within the company. Key responsibilities included UX/UI design, user research, and developing design systems.
